Re: Questions from the Committee asked during the tour

On January 8, I e-mailed a list of questions to the District. On January 9, I received an answer about the security cams from Larry Simon. No other answers came back.

On January 22, I send a follow up question to the District asking for a timeline for when the questions will be answered. I got a response on January 22 saying "...by the end of this week or the beginning of next week".

As of January 30, I have not received any response.
